# Recap OC3 2022 – Selected talks

The image displays seven overlapping promotional cards for the OC3 2022 conference, held on February 17, 2022. The cards are arranged in a staggered, overlapping fashion against a dark purple background. Each card features the OC3 logo and the text 'OPEN CONFIDENTIAL COMPUTING CONFERENCE'. The talks and speakers shown are:

- Cloud Native:** "PODfidential" Computing – Protecting Workloads with Cloud Native Scale and Agility. Speakers: Stefan Liesche & James Magowan (IBM).
- Keynote:** Journey towards the confidential cloud. Speaker: Mark Russinovich (CTO, Microsoft Azure).
- Low-Level Magic:** AMD Secure Nested Paging with Linux – Development Update. Speaker: Jörg Rödel (Suse).
- Cloud Native:** Confidential Containers: Bringing Confidential Computing to the Kubernetes Workload Masses. Speaker: Samuel Ortiz (Apple).
- Low-Level Magic:** Transparent Release for Releasing Verified Binaries. Speaker: Razieh Behjati (Google, USA).
- Apps & Solutions:** Confidential Computing Governance. Speaker: Mark Novak (JPMorgan).

The OC3 logo is prominently displayed in the bottom right corner of the overall image.
